Health Board Lays Down Law On Septic Tanks

Engineering Director Takes Slap At Glades Conditions

A Florida bureaucrat in the enthusiasm and pomposity of his position, and before a dependent and selected audience, has told the public what will be done to stem the derrogation to the Glades and highly unbecoming to a public servant, even if they are indicative of the man's thinking.

"For years I tried to keep people from moving to the Everglades," was one statement; another, "Those who need help just do not want it."

The engineering director of the time, Nathan Mayo was "misquoted" about people living in the Glades; Nathan had the intestinal fortitude to apologize for the initial misrepresentation of his remarks.

We wonder if gentleness is still found in the offices of public servants at the state level.

No Warnings.

On Septic Tanks.

According to City Engineer John Pickett, the State Board of Health has made arrangements which will ensure that FIA or Veterans' Administration loans on buildings with septic tanks are "a thing of the past in the mucklands."

Pickett, who said that at a meeting in West Palm Beach last Friday, David B. Lee, Jacksonville, director of the Bureau of Sanitary Engineering of the State Board of Health, said:

(Continued on Page 2)

GLADES FIVE AND TEN FRESH FROM REMODELING

The Glades, Five and Ten Cent Store on Avenue A, after remodeling, is open again, shaping up in general, is ready for a "Buy In School" sale.

Mr. and Mrs. B. N. Forrest, the owners, said they wanted to make the numerous departments of the store to "something the Glades can be proud of." They are turning special attention to families, children, far, the young, are eye-catching. Also for women who like to "sew their own," the store carries McCall patterns.

Glades Historical Epoch Passes With Hillsboro Auction

New blood, new ideas, and new (and plenty of) money are needed to keep the Glades frontier, and Florida, America's last frontier, has been no different. New blood, ideas, and money will well together, especially when the money is stacked in gold, the disposal of those with ideas.

Out from peanuts, as well as the hay, interested the Brown brothers, of the Glades Peasant Bank, and the money they had come are some 700 yards west of the town of Bennett, purchased from the I. L. Board, after extensive research and study by engineers and scientists, and with particular growing, vegetable farming in the Glades received that stimulant of ideas and money most necessary in experiments and applications.

Many present-day crops were first planted commercially after expensive experiments at (Continued on Page 4)

IMOGENE FONTAINE TO ATTEND SHORT COURSE

Imogene Fontaine, interviewee at the Florida State Employment Officer here, will leave Saturday for Gainesville where she will attend an Employment Service short course to be held on the campus of the University of Florida from September 10 to 23. This course, designed to supplement interviews, training, and orientation of employment interviewers, counselors and other personnel workers, will be conducted by the General Extension Division of the University in cooperation with the College of Arts and Sciences and the Florida State Employment Service.

Barry Pagin, Assistant Professor of Education, University of Florida, will be in charge of instruction.

Employment counseling, supplemented with aptitude and interest tests, is offered by the employment office to those individuals who need this service. These persons, in general, are young, inexperienced job seekers, teenagers, or older workers who for various reasons find it difficult to make an occupational change.

"We are here to help," said George, "but we have suffered just long enough. We hope that the ladies—God bless them—just can't parallel park," and that they therefore take their shopping lists elsewhere. He said, "I've never seen a car try to parallel park, and she just can't manage it; she'll get mad as a cobra, and zoom off."

The commission here Chief of Police Charles Goodlett, who said that with a sharper angle, the lot could accommodate the change. Avenue A, he said, was as follows:

Slaughter Cattle

Steers—Comm. 21.25-24.50; Cutler 16.00-21.50; Calves 22.00-25.00.

Stockers Cattle

Steers—Medium 19.00-21.50; Comm. 17.50-20.00; Inferior 12.00-15.50.

Commission Votes Tentative Budget Of \$286,265.33

A tentative budget of \$286,265 was adopted yesterday night by the City Commission, which had previously met in numerous heavy sessions to consider estimated revenues for 1952-53, and to whittle down proposed expenditures to size.

The budget, which will be finally adopted at the next meeting of the Commission, includes \$73,956 for Street Department, \$46,600 for the Police Department, \$37,450 for the Building and Sanitation Department, and \$28,500 for the Fire Department.

The Commission also set aside a tentative budget of \$101,250 for the Water Department, based on anticipated revenues from water service for the coming year.

On Commission actions in their Tuesday night session, at which Commissioner Carlton was absent, owing to illness, were:

Ave. "A" To Go Back To Angular Parking System

Change Voted Tuesday At Request Of City Merchants

There will soon be no more parallel parking on Avenue A. The City Commission at its meeting Tuesday night, voted to remove the parallel parking system and spend up to \$700 to move parking meters to accommodate the return to the old-fashioned system.

The move was made at the request of merchants on the Avenue, who say their business has fallen off since the innovation of parallel parking two years ago.

Ralph Kirk, George Scarrow, and Grady Edwards appeared before the Commission to request the change. Kirk acted as spokesman for the group, who claimed to represent 80 to 85 percent of the merchants along the Avenue.

"We are here to help," said Kirk, "but we have suffered just long enough. We hope that the ladies—God bless them—just can't parallel park," and that they therefore take their shopping lists elsewhere. He said, "I've never seen a car try to parallel park, and she just can't manage it; she'll get mad as a cobra, and zoom off."

The commission here Chief of Police Charles Goodlett, who said that with a sharper angle, the lot could accommodate the change. Avenue A, he said, was as follows:

Stockers Cattle

Steers—Medium 19.00-21.50; Comm. 17.50-20.00; Inferior 12.00-15.50.

Commission Votes Tentative Budget Of \$286,265.33

The Commission candidates for the two seats from North and Central Boroughs will be out stumping this weekend, getting ready for the election next Tuesday, Sept. 9, at American Legion Hall.

In North Borough, Harold Rabin is a strong contestant for the two seats from North and Central Boroughs.

Ben L. McLaughlin, director of the Glades Commission, which handles the migratory birds, would be allowed every day, that a duck stamp is necessary for taking ducks and geese.

Ben R. Thompson, manager for the taking of migratory birds, says that a duck stamp is necessary for taking ducks and geese.

For the taking of migratory birds, a duck stamp is required within one-half mile of any place where salt or feed that may attract such birds is placed, exposed, distributed, scattered, placed at any time within two weeks prior to the opening on such birds.

AT 20-MILE BEND REMEMBERED

Melvin Livengood, Palm Beach County executive director of the Red Cross, brought a small group to the American Legion Club luncheon meeting Wednesday at the Bend. Mr. Livengood also brought a movie screen. Only thing he forgot to bring was film tape, but he had a picture with him which he had intended to illustrate his talk on Red Cross activities.

Mr. Livengood, who said he remained at Tween Waters Inn in an inconvenient place, that he had forgotten the picture, had to act out his own illustrations, a Lamey man said. Livengood was absent, owing to illness, were:

NEWS OF GLADES BOYS AND GIRLS IN THE SERVICE

has been stationed at Hunter Field, Savannah, Ga., for the year, and half is being transferred to overseas service in England. He left Sunday, for Savannah and expected to ship out some time this week.

Mr. and Mrs. O. W. Woodham of Homestead, Fla., parents were here for a visit with him before he left. Mrs. Woodham will remain here with her parents, Mr. and Mrs. J. W. Mathewson in his absence.

Camp Pickett, Virginia — August 22, 1952—Private Leon B. Woodham, son of Mr. and Mrs. P. B. Johnson, Bryant, Florida, has reported to the Medical Replacement Training Center here for 16 weeks of basic training.

At MRTC, the Army's only basic training school for medical enlisted men, he will receive eight weeks of basic infantry training and eight weeks of basic medical training.

The day's activities, planned and made possible by the Ladies' Golf Association, attracted a large group, although a number of members were out of town or (Continued on Page 2)

GARDEN CLUB EXPECTS BEST SEASON EVER

The Belle Glade Garden Club will open its fall season with a covered-dish luncheon at the Community Clubhouse on Thursday, Sept. 11, at 12:30 noon.

A contest will be held on the arrangement of flowers fruit for picnic tables. The specimen plant exchange will also be another feature of the meeting.

All members are urged to attend this opening session.

The various committees have been hard at work planning for the coming year, which promises to be the best the club has ever had.

Glades members of the 318th Logistical Command, area Reserve Corps unit, recently returned from two weeks at Camp Rucker, Ala. Left to right, standing, are Major Maurice Fletcher, Captain, and First Lt. E. M. Lively and Capt. W. A. Williams of Belle Glade. Bottom row: 2nd Lt. George D. Burdette, Warrent Officer Junius T. Harris, and 1st Lt. Emmett Roberts, all three of Belle Glade.

Ten Days Added To Waterfowl Hunting Season This Year

Florida hunters will have 10 extra days this year for the shooting of ducks, geese and coots, according to the migration forecast issued by the Federal Wildlife authorities and released last week by the State Game and Fresh Water Fish Commission.

The regulations also revealed that the limit of 10 birds will be allowed to shoot a daily limit of three Canada geese this year, about all they can spare away from the job, and if they are members of the Organization, permitted to take one only twice a day.

The season for ducks, geese and coots opens Nov. 17, five days earlier than last year, and ends on Jan. 10, five days later than the conventional 45 degree north latitude date. Shooting will begin at noon the opening day for all three species thereafter being one-half hour before sunrise to one hour before sunset.

Duck bag for ducks will be four, only one of which may be a wood duck; for geese, 3 Canada and 3 Migratory, and for coots, 10. Possession limit will be one day's bag for ducks and one day's geese and coots.

Ben L. McLaughlin, director of the Glades Commission, which handles the migratory birds, would be allowed every day, that a duck stamp is necessary for taking ducks and geese. Medical shotguns must be plugged to 3-shell capacity, the use of rifles is prohibited, and that shotgun shells must be taken within one-half mile of any place where salt or feed that may attract such birds is placed, exposed, distributed, scattered, placed at any time within two weeks prior to the opening on such birds.

WATER COOLER BOUGHT FOR NEW HIGH SCHOOL

The Lions Club voted at their business session Wednesday to buy and install immediately a water cooler in the new high school building. It will be remembered that the club was also responsible for putting a cooler in the older high school building when it was finished.

SEVENTEEN CALLED FOR PREINDUCTION

Seventeen men from this area, together with four transferees will be forwarded to the Miami Examining and Induction Center for pre-induction examination. Mrs. F. W. Quinn, Local Board Clerk, requests that all registrants report at the local board office on September 11, at 9:15 a.m. sharp to answer roll call.

Red Blinkers Now Up On All Four Death-Trap Spans

Well, they did it. Last Friday red blinker lights were installed on three Glades Bridges, those at Canal Point, Lake Harbor, and South Bay. The blinkers installed are similar to those already put in at Silver Springs earlier this year, after a fatal accident took the lives of five persons.

An attempt will be made to install the red blinker lights on the remaining four spans of the highway, also discover new road signs, both approaches to these one-lane bridges; the signs, clearly in the open, are six-feet square, in read, "One Bridge Lane." Atop each sign, the red light, blinking their warning to incoming motorists.

The lights and signs were installed by the State Road Department maintenance crews, following requests from the Glades Citizens Committee for Highway Safety, organized two weeks ago at the Bend. The blinks are placed as a gap measure until new bridges are built to replace the dangerous one-way spans which have been responsible for many accidents.

Money has been budgeted for the middle of February 1950. The Citizens Committee is to meet again tonight at the Bend. Chairman Alfred McKeithan of the SRD and Chairman Kenneth Foster of the Bell Glade Post Office Committee have been invited to present to discuss progress to under take construction as rapidly as possible.

KIRCHMAN HONORED

F. W. "Pop" Kirchman, long-time resident of Chosen, was admitted to Belle Glade Hospital last Thursday. According to his son, August, Mr. Kirchman had been suffering from a malignant ailment for two years, needs an operation, but is still in good health.

The fugitive, whose blood type is the rare O RH Negative, has had four transfusions in the past week. He is being treated by Dr. R. L. Pipes.

ACTIVITIES WEEK OF YOUTH MENTALISTS

The Methodist Church's annual youth activities were continuing the week of Sept. 8-12. Beginning each evening at 7:30 and lasting until 9:30 there will be singing, discussion groups, folk games, and a short worship service. A banquet at 6:30 Friday will be the climax of the week's activities.

Tickets to the banquet are 75 cents, and will be on sale by members of the Youth Fellowship.

Everyone from 12 to 23 is invited to participate.

Two Former Rams Begin Training With Florida Gators This Week

Two Belle Glade football players who last year were in the top half of their freshman class at the University of Florida, left last weekend for Gainesville to start in fall training with the University's football squad. They are Bill Burke and Ron Winnie, Jr., both of whom hold scholarships from the University.

Regular workouts with the Florida team under the direction of Coach Leo Woodward, will be held at the University's football field, and practice will be on the gridiron.

On the opposite side of the ledger, which shouldn't worry the Glades too much, are the Lennies. Two Glades Federal mortgage at

Bill Burke, whose outdoor farm work was added exercise, left last Sunday. Ross, who during the summer was employed at the USD, after returning to the Experiment Station, left Saturday. Football practice at Gainesville was scheduled to start Monday.

Both have developed as football players during their years with the Fighting Rams here, when both received football honors. Last year they played on the University's freshman team, Burke as end, and Winnie as tackle.

Burke is majoring in physical education, while Winnie is attending college for a career in chemical engineering.

The plan, however, is to have the students take care of those who have no safe refuge."

The plan generally discussed is to have the people who live in the highlands around Lake Wales, Sebring, and Winter Haven.

The Committee membership extends from Canal Point around the Lake to Clewiston and Moore Haven.

"The attitude of the Evacuation Committee," according to Luther Jones, its chairman, "for the past several years has been to encourage people to leave the area and to help them get out of the area."

"That is still its attitude. However, should an emergency develop in the area, we want to take care of those who have no safe refuge."

The plan generally discussed is to have the people who live in the highlands around Lake Wales, Sebring, and Winter Haven.

The Committee membership extends from Canal Point around the Lake to Clewiston and Moore Haven.

HEALTH BOARD

(Continued from Page One) about 30 real estate brokers to and a subdivision developer who would no longer give SBA approval for projects where there is a "shadow of a doubt" on the proposed project's worthiness. Since the Florida Glades builders, the conditions established by the SBB to insure proper operation cannot be easily met, he concluded with him was the Aken, Ohio realty, who is building a subdivision west of Greenacres. In the meantime, the park, according to Mr. C. W. McDonald, supervisor, the weekend saw much activity at the park in the form of family parties.

At one point in the discussion of sewage disposal plans, Mr. McDonald turned to Lee, and he turned to Lee, who had been unable to discuss further. Mr. Pickett, who attended the meeting without invitation, said he had been in touch with his wife, Mrs. M. McAllister, and Mrs. S. M. McAllister, interested in a barbecue dinner in honor of his parents, Mr. and Mrs. J. H. McAllister of Asbury, Ga. Other guests were Mr. and Mrs. Eunice and Frances McAllister, Mr. and Mrs. David Brantley, and their daughter Vicki Anne of Perine, Fla., and Jack Shaw, also of Perine.

Later Pickett said to Lee, "Although you stated that you have tried to keep people from moving to the Everglades, there are many of us there, and there will be more, but as I look over

additional funds to install sewer systems and treating plants, Mr. Lee then, according to Pickett, "indicated a conditional warrant that he would no longer give SBA approval for projects which represented private capital," where there is a "shadow of a doubt" on the proposed project's worthiness.

The consulting engineer, Alexis Basile Kononoff, stated that he was available to discuss fl-

oating homes with the SBB.

Mr. Pickett, who attended the meeting without invitation, said he had been in touch with his wife, Mrs. M. McAllister, and Mrs. S. M. McAllister, interested in a barbecue dinner in honor of his parents, Mr. and Mrs. J. H. McAllister of Asbury, Ga. Other guests were Mr. and Mrs. Eunice and Frances McAllister, Mr. and Mrs. David Brantley, and their daughter Vicki Anne of Perine, Fla., and Jack Shaw, also of Perine.

Also on Labor Day Mr. and Mrs. Ted Daniels, of Lake Harbor, Brown of South Bay, with Mr. and Mrs. G. Brown and son Marjorie, Warren, Jack Gideon and John of Clewiston; Mrs. Geneva G. e and Mr. and Mrs. Walter Mosley and son Walter, Jr. of Chiefland.

In the evening, the Sunday School Building of the Sunday Harbor Community Methodist Church held an evening picnic with over 60 children in attendance. Services in the church were held by Mrs. A. B. Mathis, Mrs. and Mrs. Charles Burkett, Mr. and Mrs. H. D. Merriman, Mr. and Mrs. Fred Merriam, Mr. and Mrs. E. J. Curtis, Mr. and Mrs. E. D. Heywood, Mr. and Mrs. Bailey Hemphill, Mr. and Mrs. J. R. Thomas.

Activities of Glades Scouts

their training course in September. If you are interested in taking any of this training open to us and have not yet arranged for transportation, please call 2330.

In addition, the Girl Scout Council of the Palms, Girl Scout Council, lent the Central Committee a film on girl scouting, which was shown to the American Legion Auxiliary and Belle Glade at a recent meeting. After seeing the film, the Auxiliary voted to sponsor Girl Scouts in Belle Glade.

Bills have been ordered for the use of the committee members in studying their jobs on the committee and to help in training all adults who will be involved in having Neighbors volunteers have been contacted and signed up as consultants to assist the leaders in the various activities they will program during the year. An assortment of programs material has been collected and will be stored in the Scout Hut, available to all leaders.

On September 1, 1952, the Girl Scout Hut will not be used for any purpose other than those associated with Girl Scouting. Some preliminary plans have been made so that before the girls can begin their projects of redecorating. The presence of insects has made overnight stays somewhat unpleasant, and therefore the huts have been inspected to see what extermination steps are necessary. Mr. E. C. Mapp will check on the carpentry work and Mrs. Jessie Miles will ascertain what is needed for painting the interior. Mr. Cone, of Cone's Paint Store, has agreed to supply the paint at no cost.

The Girl Scout Council of the Palm Beaches has agreed to assist us in any way possible. They have invited us to attend

WASHINGTON NEWS LETTER

From
[Signature]

WASHINGTON

— When

climbed into the flying clippers at Paris last week to begin my flight back to this country,

I experienced a sense of elation

which has remained with me since.

I had spent three weeks in

Europe and I felt more encou-

aged than at any time since the

end of World War II. About con-

versations over there.

The definite impression has

stayed with me that the dollars

the American people have sent

to Europe have been well spent,

and therefore the huts have been

inspected to see what extermin-

ation steps are necessary. Mr.

E. C. Mapp will check on the

carpentry work and Mrs. Jessie

Miles will ascertain what is

needed for painting the interior.

Mr. Cone, of Cone's

Paint Store, has agreed to supply

the paint at no cost.

The Girl Scout Council of the

Palm Beaches has agreed to assist

us in any way possible. They have invited us to attend

At a meeting of the Central Committee for Girl Scout activities on July 1, 1952, a number of resignations were accepted from persons serving as officers in the past, and the following officers were elected to serve for the coming year:

Chairman—Mrs. A. B. McCormick; Vice-Chairman—Mrs. Herbert Beck; Sec.-Treas.—Mrs. R. L. Allen; First Captain—Miss C. W. McDonald; Publicity—Mrs. Wafer Thomas; and Mrs. George Young; Ways and Means—Mr. R. J. Allen; and Mr. B. C. McLaughlin; Equipment—Mr. Robert Murray; Maintenance—Mr. E. C. Mapp; Consultant—Mrs. A. E. Kirchman.

The Belle Glade Herald has reserved space for Scout news and through this column, the public will be informed of the girls' activities, needs, and progress, and of meetings of general interest.

The Girl Scout Council of the Palm Beaches has agreed to assist us in any way possible. They have invited us to attend

The wages of economic sin are debt and taxes."—Irving S. Olds, former chairman of the Steel Corp.

The purple-blooming flower fisherman whether he is a rod-and-reel, a fly-rodder, or spin-

the electric range in the hut under as possible, this advance work is being done while the potential leaders and assistants are taking training, so that we will be ready to provide a good program for our girls this year.

LATTER DAY SAINTS CONFERENCE SUNDAY

The Church of Jesus Christ of Latter Day Saints, South Bay, green capitals — London, Paris, and Madrid, have traveled around and did a lot of sightseeing. But in so doing we visited and talked with many people. In some other articles regarding this trip, I will tell you about some of them.

Whether conditions as I found them are to remain, whether the optimism which was evident to me, is soundly based or will last, I do not know.

I believe I can say positively that our National Program is a success. It has been a success. I think this program — under the Economic Security Administration has done lasting good. It has been well received by the people.

The definite impression has stayed with me that the dollars the American people have sent to the world peace and world economic stability which affects all of us have been well spent — and that the end of such aid is definitely come.

It seemed to me that circumstances which make it possible for the Communist Party to recruit and to live are not favorable.

In the very near future, possibly next year, it seems probable that we may direct money assistance to meet of European needs.

Next year, the military aid program under the North Atlantic Treaty Organization. All the aspects of these issues are important.

After this, the military aid program under the North Atlantic Treaty Organization. All the aspects of these issues are important.

It is a definite impression that the American people will welcome.

BOOK ON FAMOUS BROTHERS
INSCRIBED TO WIFE OF
FLYING FOODS PRESENCE

"To Emma Eileen Oeding," is the simple dedication of "BROTHER TO THE EAGLE," a biography of Lt. Carl Ben Eielson, famous aviator who piloted Sir Hubert Wilkins in exploration flights over the Arctic and Antarctic.

Mrs. Oeding, sister of the aviator, is known here as the wife of Florida Farm Bureau president Elmer Oeding. Among her friends in Belle Glade is Joan Mueller White, 309 2nd Street, to whom she recently sold a small-airedramatic book by Carl Ben Eielson, Nicolai Roloff, North Dakota teacher-turned-author.

"BROTHER TO THE EAGLE" is the title of a book written by Carl Ben Eielson, first aviator to fly across the North Pole.

Before his death at the age of 32, Eielson had been awarded the Congressional Medal of Honor, the Distinguished Flying Cross, the Harmon Trophy for 1929, the International League of Aviators 1928 award, and a host of other awards from the courts and rulers of Europe.

As pilot for George Hubert Wilkins, he was the first to fly a plane "over the top" of the world. He did it in a 2½-mile non-stop flight from Pt. Barrow, Alaska to Green Harbor, Spitsbergen, April 16, 1928.

Earlier, he had earned other laurels. He was first to fly a plane in Alaska, first to prove the commercial value of air transport in that territory, first to fly to Alaska during winter, first to land a plane on snow, first to land a plane in the frozen Arctic Sea, first to fly over the Arctic Circle; after the Spitsbergen flight, he went with Sir Hubert to explore the Weddell Sea area of Antarctica.

"But," says the publisher's note on the book, "a North Dakotan who was not a hero himself, turned him into one."

Carl Ben Eielson, who turned him into a hero, was modest:

"... the Ben the kids and old ladies loved, the Ben who walked in the snow, the Ben who milked the cow, the Ben who walked in his sleep, the Ben who amazed Minnesota and North America, the Ben who charmed the antlers of the moose."

After the antlers of the moose,

the Ben the kids and old ladies loved, the Ben who walked in the snow, the Ben who milked the cow, the Ben who walked in his sleep, the Ben who amazed Minnesota and North America, the Ben who charmed the antlers of the moose."

Little Red Car Gets Attention

A tiny automobile, fire-engine red, has been parked in front of the rooming house at 125 SW Avenue B for the last several weeks. The car, an English MG, belongs to Bob Deininger, a member of the commission who has worked for the Army Engineers in Florida for a year and a half. Stationed at Fort Lauderdale, he has been working here since the beginning of August on core drilling for the Central and South Florida Flood Control District.

His MG, a diminutive convertible which attracts attention wherever he goes, is probably the first MG ever to be seen in Central Florida. Although in Europe and in the northern US, MG's are not rare.

Mrs. Ruth Barron, Deininger's landlady, threatens to "pick up the car and put it in her pocket."

SIX GLADES RESERVE

(Continued from Page 1)

The supply services included Transportation Corps, Engi-

neers, Medics, a Hospital Unit, Chemical Warfare Criminal Investigation, Army Postal Units, and Military Police.

The daily operations of the 1,000 men taking part in the camp were according to a master training manual, drawn up Capt. W. A. Wooster, Plans and Operations Officer. Major E. M. Lively, Intelligence Officer, supervised the making of maps of the area, the investigation of subversive activities among the group. Major Maurice Fletcher was a Transport and Supply Warfare Officer, Juneau T. H. Personnel Officer; 2nd Lt. George Wedgworth, Special Service Officer, and 1st Lt. Emmett S. Roberts, Quartermaster, Property Officer.

The biggest single service in the coordinated training activities was an Engineer Brigade which built Bailey bridges, floating bridges, and made repairs.

For two days the Reservists took part in field problems, a simulated attack by aggressor force planes.

Every day problems were those of food and materials, of transport, of medical service, of communications.

On the lighter side, the Officers' Club served meals; there were a swimming pool, and five or six movie houses, including film fests.

Camp Rucker, 27 miles west of Dothan, Alabama, is "pretty much in a scarcely populated area," Emmett Roberts said. All the officers were housed above the two parts, arranged by George Wedgworth as Special Service Officer, who put on a frolic for officers and another for enlisted men.

Reservists from this area are all veterans of World War II, with the exception of Wedgworth, who took his ROTC training at Michigan State, who has not yet been called to active duty.

Describing the Reserves as "the backbone of the military," Emmett Roberts pointed out that they are all on M-plus-30 call, which means that in case of general mobilization, they would be called to duty within 30 days.

Hurricane Emergency Information For Your Protection

If you observe the following precautions, you need little fear of an approaching storm. If you feel insecure in your home, go to the nearest Red Cross shelter. Evacuate exposed beaches and islands early. Pre-storm tides may cut you off.

2. Take blankets and pillows to shore. If speed is needed, take formula if needed, take materials with you. Only emergency rations will be provided.

3. Pets cannot be taken to shelters, so be sure to leave plenty of food and water for them.

4. If you are staying home, remove loose window glass and door shutters. If possible, board up, use strong lumber and nail securely. Brace French doors.

5. Collect and place indoors loose objects such as garbage cans, yard tools, and porch furniture.

6. Block candles, lamps and other light fixtures. Check emergency cooking facilities and be sure adequate fuel is on hand. Lay in a supply of canned foods and milk. Electric service may be down, so turn off or shut off as a safety precaution if winds reach hurricane force.

7. Conserve refrigeration. Turn your refrigerator to cold, leave it on, hang to cold as long as possible. Open, only when absolutely necessary and close quickly. Refrigerators and freezers will stay cold much longer if these precautions are taken.

8. Your water supply may fail. Sterilize your bathtub and other containers and fill with water.

9. Fill your car with gasoline.

10. As the storm progresses, listen to the radio for information from the weather bureau and the Disaster Committee of your Red Cross. These are official. Do not spread rumors.

11. White storm winds blow, stay inside. Keep a door or window open on the side away from the wind. Be quick to close it if necessary. Hold a candle across and open one on the other side.

12. Use flashlights if possible. A gust of wind might upset a lamp or candle and cause of fire.

13. If the storm center passes

Washbowl Facial Soothes Complexions Into Summer Prettiness

If you don't want to face with trouble, you'll take your summer sun in installments and plan a "babying" campaign for your tanned skin.

To counter-balance the parching effect of Old Sol and keep sun rays from getting the best of your skin, dry lines, take a few minutes occasionally to give your face a skin bath. Band your hair out of the way (use a comb for a quick-setting trick). Then squeeze a handful of baby powder into a washcloth and dip it into glove. Regular baby lotion treatments pay dividends in soft, summer skin.

your area, there will be a calm period or lull lasting from several hours to as much as an hour. Wind and rain may continue, but do not be fooled. The wind will resume from the opposite direction, often with greater force than before.

14. After the storm, be cautious of every move. Do not touch fallen or low hanging wires of any kind under any circumstances. Do not stand near trees with fallen wires in them. Watch out for weakened limbs, porches, bridges and other structures.

15. Use your phone for emergencies only. Jammed switchboards may prevent emergency calls for police, firemen, doctors and Red Cross Disaster Units. If damage is wide-spread,

9. Fill your car with gasoline.

10. As the storm progresses, listen to the radio for information from the weather bureau and the Disaster Committee of your Red Cross. These are official. Do not spread rumors.

11. White storm winds blow, stay inside. Keep a door or window open on the side away from the wind. Be quick to close it if necessary. Hold a candle across and open one on the other side.

12. Use flashlights if possible. A gust of wind might upset a lamp or candle and cause of fire.

13. If the storm center passes

do not touch the telephone system, repair individual electric, gas, water and telephone service. Utility companies have plans for complete service restoration. Report individual trouble only after services are back on in your neighborhood.

17. Do not report immediately hazardous conditions such as live electric wires and broken gas and water mains.

18. Use extreme caution with emergency lighting or cooking facilities and fire hazards.

19. Protect your health. Boil water before drinking.

FRIER NEW ASSISTANT MANAGER OF KILGORE'S

Friar, who has been two years with Kilgore and has proved his capabilities, was the logical one to succeed Douglas, the Kilgore manager.

Mr. Barry also announces that C. W. Crosby has joined the Kilgore staff as a clerk.

National Planning Association authorities report numerous experiments show that the yield of corn, cotton, hay or other crops may be increased 50 to more than 200 percent by one application of fertilizer.

Vote for

William A. Thiebaud

for

CITY COMMISSIONER

As a citizen of Belle Glade I am deeply interested in the welfare of our community and I pledge myself to you for wholehearted and unselfish service for the office I seek.

Our community is continually growing and expanding, and I am in favor of improving the environment in which our children live. Our community must be a progressive community. For example I am in favor of the following and will step forward with sound and sober thinking to consider same:

- an adequate swimming pool
- a city manager
- a progressive sidewalk program
- playground and park improvements for both our white and colored people
- more adequate drainage for the entire city
- culverts in the main drainage ditches near residential areas
- a new bridge across the canal near the high school

I will at all times give the best that I have to consider the many problems that confront our commission. Your vote and support will help me to serve.

Thank you,

William A. Thiebaud

RE-ELECT

Walter Ashley

CITY COMMISSIONER

If re-elected I will continue to help our City grow in a reliable business manner.

Candidate From

CENTRAL BOROUGH

(Paid Political Ad.)

You Can Depend On:

1. A man with business experience, civic interest, family pride, religious background.
2. A man who has lived among you and worked unselfishly for the best interests of Belle Glade during the past ten years.
3. A man who desires and will work for the progress of every section of the city, regardless of the race, color, or creed of the inhabitants, with sanitation, health services, adequate police protection, and impartial law enforcement for all.
4. A man who understands the problems of the farmer, merchant, and property owner.
5. A man who wants and will appreciate your vote.

You Can Depend On

Milton Burry

CANDIDATE FOR CITY COMMISSION, CENTRAL BOROUGH

(Paid Political Ad.)

Citizens of Belle Glade

The progress and improvements of the past two years speak for themselves. I am proud that I have had a part in bringing them into being.

Now I would like to point out some of the projects that I will diligently work for in the next two years, if re-elected.

1. A sidewalk on West Lake Road from Main Street past the school, to protect the lives of our children.
2. Extension of Avenue A to connect with the new highway in Chosen, to divert traffic through the business section, which will bring many dollars to Belle Glade.
3. I will cooperate with any group or groups to make a swimming pool for our children a reality, not dream. IT CAN BE DONE.
4. More streets, sidewalks, and drainage, city-wide.

If you approve of the work already completed and would like to continue the progressive trend,

PULL LEVER 1-A Tuesday, Sept. 9, and

RE-ELECT

W. F. "Billy" CRIDER

Commissioner from North Borough
I will appreciate your vote and support

Paid Political Ad.

Too Late To Classify

By Russell Key

Some guys never learn and you can put me down in that category. While I know from experience that no place on earth has more to offer than Florida, summer and winter, every so often I go haywire and let friends and relatives talk me into leaving the state. Every time I do I'm sorry.

Last month I took a trip to Virginia, where I visited my son in Georgia and the Carolinas. Leaving comfortable air-conditioned Florida, I drove north on the coastal route and when we got up there from Florida the heat got it.

Stopping for gas at Savannah

I noted the thermometer in the

gas station read 105 at noon. Sights the route were pitiful; cotton was burned up in the fields, cotton that had grown well, withering in the heat. Pasture lands were burnt up.

The air that rushed in through our car windows couldn't have been any cooler. It came straight from the mouth of a blast furnace. And it was that stifling, muggy, sticky kind of heat that settles over you like a blanket and makes you feel like a cross between an over-worked dishrag and a baked potato.

Thinking that Myrtle Beach would probably be as cool a spot as we could find for the night, we drove there and began looking for an air-conditioned hotel. We found that there aren't many air-conditioned places available.

After ringing doorbells and asking directions from people on the beach to the other side, we finally located one place where they had, or said they had, an air-conditioned room. It was available at \$10 a night.

We took it, but it was too hot and uncomfortable to stand around with the sweat trickling off our nose and down our back and arms. Not a cent's price.

Being an all-time air-conditioned room, it had been closed up tight all day. When the proprietor opened the door we went in with relief, just as well having been a three-alarm fire as far as heat was concerned.

Stepping over to a window box conditioner the guy turned the thing on and assured us we would be as cool as proverbial cucumbers in a few minutes. Well, anyhow, that conditioner started to hummed and burped and shook and shivered to no avail.

We decided to go to the comfort station across so we went out to eat figuring that when we returned the room would be cooled off. Walking down the beach we just couldn't help comparing it with Daytona.

Clearwater, Panama City and other delightful Florida summer spots are not what they used to be, and the beach narrow, the buildings old and weather-beaten. A discouraged ocean made no effort to waft any breeze landward. It was like before it started.

Returning to our room we found the faintest little window screen that settled over you like a bad dream but the room itself was cool as hot or hotter than it was when we left. We thought of getting in the car and driving to the beach again, but it had been so enjoyable lying around most of the night like we did trying to kick and toss ourselves to sleep. And, as my friends, was what is laughingly termed a summer vacation trip.

We fared better in Virginia. My friend Vernon Johnson, who had been a lot in the area of Florida, had learned about attic fans and had installed two of them in his house. Then he has a nice little cottage on Chincoteague Bay and took us on a trip the next day.

Evidence of Old Sol's destruction was visible in Virginia just as it was in Georgia and the Carolinas. Crops were almost

a total loss in some areas with no relief in sight.

Stopping in Fayetteville, N.C., to pick up our daughter who had been visiting her grandmother, F. B. Bing, we hit the only jack-pot on the trip. It was a sure enough air-conditioned room and the proprietor has sense enough to keep it operating all the time. Our room was cool and comfortable and the rate was only \$7 double. It was also air-conditioned throughout and we felt safe in the boys in barracks where the temperature was about 120.

Heading for western North Carolina we thought we'd get a better night's rest and found better weather there. Just to make sure we would not forget Florida. Mother Nature turned on the heat again. When we reached Coolidge the temperature was 119 in the shade.

Air-conditioning was scarce and far between. It is so cool and delightful according to the natives that don't live here.

Well, somehow we lived through another night and then turned tail and ran for home the next day. A glorious day of sun, snow, green grass at the Florida line. I used to hate driving in the rain, but brother this was one time I enjoyed it. I'll "Stay at Home and Play at Home" from now on.

ROMANCE IN STORY OF THE TOMATO

Plant Lover's Florida Grower Magazine, S. C. Hood, a lifelong student of plants, tells the story of the ordinary tomato, and its place in human life.

You see there were many who were "agin' it," saying it caused falling of the hair, cancer and many other ills -- which it does. It is a tomato well developed by the same ancient Peruvian plant breeders who brought the equally humble potato into the food of mankind.

As late as 1656 the tomato was grown as an ornamental; it is mentioned in Miller's Gardening Dictionary in 1724, and "Gardener's Calendar" in 1770.

Thomas Jefferson reported a new ribbon form of the vegetable, but conservative New England didn't seem to like the tomato until 1835 when it was sold in a dozen boxes in Boston.

Progress recently released by the Florida State Advertising Commission indicate a growing motor traffic to Florida. We should begin now to consider the construction of permanent arterial highways connecting major cities.

Nice things
call for
burglary insurance

The fun of owning nice things is spoiled if you fear burglars, robbers and thieves.

The fun can be made complete if you'll let us abolish fear with an America First policy to protect you against losses. And holdup and theft away from home are covered too--at very low cost.

Get this enjoyable protection for your household goods, personal effects, clothing, jewelry, silverware, furs, etc. Ask us.

For the easiest lawn care this season and for many seasons to come . . . you need a self-propelled rotary lawn mower. That takes all the work out of lawn care. You can't beat the Snappin' Turtle cuts with power to spare. Eliminate the back-breaking work of pushing a hand-propelled lawn mower. The Snappin' Turtle cuts lawns faster, easier, and truer. Add up the facts. You'll find the Snappin' Turtle cuts lawns more conveniently before you buy any mower.

CITIZENS!

Each of you enjoys the privilege of voting. You are urged to exercise this right in the coming

City Commission Election

TUESDAY, SEPT. 9, 1952

American Legion Hall

Belle Glade

7 a.m. to 7 p.m.

Every vote is important. It is your right and your duty to vote

CITY COMMISSION
City of Belle Glade, Fla.

Citizens and Voters**THE PLATFORM:**

After thirty long years, in 1956 the present franchise between the City of Belle Glade and the Florida Power & Light Company will expire. I am in favor of the City owning and servicing its own power to the City customers. Now is the time to begin the necessary surveys and negotiations. This could mean a tremendous saving to the power consumer.

We need a swimming pool in Belle Glade. Our youth are the backbone of our community. They have been neglected too long.

Belle Glade needs a City Manager. Who runs a \$300,000 a year business without a full time boss?

Belle Glade needs a well planned drainage system, plus a sewerage and disposal plant for which we now have plans that are paid for.

We need middle of the road government. No favoritism, regardless of Race, Creed, Color, or Religious affiliations; a square deal for all.

We need harmony, dignity and good business judgment in our City government.

THE RECORD:

Four years on the City Commission. Mayor one year.

DO YOU REMEMBER when the city had an old truck and a few picks and shovels? During my term on the team, we bought and paid for almost \$50,000 worth of street-building equipment and built more streets than ever before or since.

DO YOU REMEMBER when the city had an old garbage packer? During my term on the team, we bought and repaired, and came up with a fully equipped Sanitation Department second to none.

DO YOU REMEMBER when the city had only one equipped fire truck plus . . . ? During my term on the team, we bought fire trucks, hose, and other fire-fighting equipment, and now have a Fire Department second to none.

DO YOU REMEMBER our parks and playgrounds? During my term with the team, we started the present system of parks and playgrounds that are now second to none.

DO YOU REMEMBER when the city had a hard time hiring the right kind of people to work, as their jobs would last only from administration to administration? During my term with the team Civil Service came to the city. Today employees, as long as they do their work properly, can have security for themselves and their families.

DO YOU REMEMBER when it was almost an impossibility to live in Belle Glade in the summer time? During my term with the team, we instituted the regular spraying of our city for flies and mosquitoes.

DO YOU REMEMBER when the city had a couple of old cars and maybe one or two policemen? During my term with the team, we bought and equipped new cars with two-way radios, equipped the Police Department with a complete finger-printing outfit, brought the force up to eight men and a chief, purchased the present police headquarters; and we now have a Police Department we can all be proud of.

During my term with the team, US Highway No. 441 was brought through Belle Glade because of my personal contact with the members of the State Road Department and the help of the other three-man committee that took time out to go to Panama City for that express purpose.

Yes! This progress and lots more was made during my term with the team; and at the same time we reduced the tax levy from 16 mills to 12 mills.

THE MAN:

Member of the Belle Glade Rotary Club. Charter member of the Elks Club. Charter member of the trustees of the Elks Club. Twice appointed, once three years, now five years, to the Harry-Anna Crippled Children's Home Committee, Umatilla, Florida. 32nd Degree Mason, Member Lake Worth Consistory. Member of the Shrine, Mahi Temple, Miami. Charter member of the Country Club. Honorary member of the Florida National Guard. Three times appointed by your Governor as member of the Southwestern Palm Beach County Hospital Board. Three times unanimously elected as its chairman by this distinguished group. Leader and active in my religious group. A participant in all civic activities of the community, who has tried to do his utmost to promote the welfare of the City of Belle Glade and all its citizens.

I earnestly and sincerely ask each and every qualified voter to consider the qualifications, and vote for me as your Commissioner from North Borough next Tuesday, September 9.

Respectfully,

Harold J. Rabin

The All-Around Candidate.

Paid Pub. Adv.
